INFORMATION TECHNOLOGY / DATA ANALYTICS

I am a dedicated professional with a T-shaped personality and work style. I am currently building skills and proficiency within Data Analytics. My previous experience includes Information Security, Technology, and Management with a background of working in the military and in cooperation with civilian, federal, and international mission partners. I have leveraged analytical, interpersonal, and problem-solving skills for success in my prior roles. I am committed to continuous development of competencies that improve data driven decision making and organizational performance.
